COLOR CAST™

Love the trend. Skip the remodel.

Dark green cabinets and backsplash are the look right now. With Color Cast lighting you can have it tonight, on the surfaces you already own, and change it whenever you like.

Same kitchen. Any look.

Change it with a tap, your voice, or a wall remote

Built neutral
Timeless white surfaces

Tonight: Forest Green
On trend, no new tile

Every day: Warm White
Cooking and gathering

Game day: Team Colors
Holidays and parties too

Same kitchen, same surfaces. Looks shown are simulated for illustration.

Change the light, not the kitchen

Changing surfaces

- New cabinets, paint, or tile to chase a color
- Demolition, dust, and weeks of waiting
- Can look dated when tastes change

Changing the light

- Keep your surfaces neutral and timeless
- Try a bold color tonight, a new one next season
- Back to warm white with one tap

Choose your light

Two simple choices, or combine them

3000K Classic White 3000K

Warm, inviting, and timeless. Flatters wood, stone, food, and skin tones.

Great for: Under-cabinet, stairs, closets, vanities, coves

Color Cast Multi-Color

Any color you can imagine, including variations of white. Set scenes and schedules.

Great for: Kitchens, media rooms, bars, bedrooms, patios*
