Style with perfect white light

3000K

Classic White 3000K

One fixed white. Simple, clean, and efficient for task and accent lighting.

3000K is a warm-neutral white that balances clarity and material beauty.

Creates a warm, inviting atmosphere that supports focus or comfort.

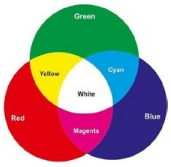

Light interacts with architecture to create depth rather than flat, uniformly lit spaces.

Seamless, dot-free options: Lighting Leaf PhosCore™ tape produces one continuous line of light with no visible dots, even reflected in glossy counters, tile, and floors.

Set the mood with colored light

Color Cast Multi-Color

Millions of colors for accents, parties, holidays, and game day.

Colors available by mixing primary colors, including variations of white.

Change the look anytime without altering surfaces or décor.

Color Cast lighting: change the look anytime without altering surfaces or décor.

Features, functions, and benefits

Feature	What it does	What it means for you
Slim, flexible strip	Fits under cabinets, in coves, on steps, and in tight spaces	Light exactly where you need it, with the fixture out of sight
Seamless, dot-free glow	Blends LEDs into one continuous line of light	Clean reflections on glossy counters, tile, and floors
90+ CRI white light	Shows colors much the way daylight does	Finishes, food, and skin tones look natural
Dimmable, color on demand	Adjusts brightness; Color Cast adds any color	One room, many moods: work, relax, entertain
Indirect, reflected light	Softens glare and harsh shadows	Easier on the eyes, and rooms feel larger
Smart control	App, voice, wall remotes, scenes, and schedules	Convenience from anywhere; never come home to a dark house
Energy-efficient LED	Low wattage and long service life	Lower energy use and less upkeep

Control it your way

- Tap or speak: dim, brighten, and change color via the app or smart assistant
- Stylish, removable in-wall remote / switch for everyday use
- Scenes for cooking, movie night, and entertaining
- Schedules and timers: wake to a gentle glow, come home to a lit house

Why a professional install?

- Power supplies sized to each run for reliable performance
- Correct wire gauge for even brightness from end to end
- Clean, concealed wiring and finished setup details
- Local support from the pro who designed your lighting
